I had a lot of acne scars on my cheeks and I tried so many treatments in the past to remove them and anything worked until I got a treatment @ Tania MediSpa. The employs were very polite as well the place looked so professional, clean and to me this is very important. I will never put my face to anyone if I am not sure that they know what they are doing. When I so Tania, I was very surprise because she looked very young and I was nervous to get a medical treatment with her bat then I ask her how old she was and she told me 36.Wow I could not believe it she look like 26 to me. After this I felt so exited to get my Dermapen treatment and see the results:

After 5 days I really so the difference in my skin some of my freckles and acne scar were completely gone!

I am so happy I am going to continue getting my treatments there until my skin is perfect. Thank you Tania!

from TaniaMediSpa for one free Microdermabrasion Facial. I decided to try them and I got my facial last Friday and it was unbelievable. my face it was so soft and my skin felt so fresh. I love it. After that I bought a package they had of three for \$99!

I defiantly recommend this clinic.

I had the shellac manicure and pedicure. The girl was very nice and did a great job. I found the salon to be very quiet and relaxing. I was very happy with my experience. Location is central and easy to get to. Lots of parking available

I liked the hair removal leg treatment, It was really fast and didn't hurt so much. Tania told me that the laser machine is from Canada so it maid me feel more comfortable. I will get my underarms on my next treatment as well with Tania

The continuing story.... I finally had my first massage at Tania MediSpa today. I was a little worried at first. I knew they were in a new location - a turn of the century (1900) house on 14th street. Parking is atrocious! plan an extra 15 minutes to find a parking spot. Parking aside... I entered the reception area - sparsely decorated - that's okay. I'm sure it will get more comfortable as they continue to renovate and put finishing touches in. I presented my Dealfind Voucher. The woman behind the desk said that Deal find owes them \$10,000 so the spa is only giving one massage instead of the three advertised on the Voucher. (That's not really my problem.) I said I'd take the massage and then talk to the Better Business Bureau about it. She said she wouldn't do the massage then. I was about to take my voucher and go to the BBB when she said if I would spread the message out she would honor all three massages. Fine by me. She ushered me upstairs to a very spacious, clean, freshly painted treatment room. She left the room and gave me the requisite few minutes to disrobe and climb onto the massage table. I had figured out by now that the practitioner was Tania, herself. She's really a very pleasant person - and she has hands of steel. Oh my goodness! The therapeutic was truly a deep tissue massage. I think next time I'll do hot stone instead. She does give an excellent massage! Just a couple of things I'd like to see, that I'm sure Tania will implement as they do finishing touches 1) a mirror so that clients can check make-up and hair after a massage; 2) a small towel to wipe off excess massage lotion before dressing; 3) cotton sheets instead of polyester - polyester makes me sweat something fierce! So, in the end, I was pleasantly surprised. I've booked my second massage for September - a hot stone massage. I'll post again after I've had it 😊

This is the best place to get the skin treatment. I did the microdermabrasion on my face and after that my face is so smooth and clean that I cannot explain. So I am going to continue this spa for myself for other treatments. I must say the place is so clean and they are really well organized.

in the last week

This is the first time I tried the DermaPen treatment, and it worked really well. I used it to treat acne scars. I could see the improvements within one week after the treatment (mainly, because the redness took a couple of days to wear off). Some of my larger scabs shrunk in size right away, during the same night.

As for the staff, the ladies are very friendly here, and made me feel very welcome.I really

I enjoyed the friendliness of the employees at this spa. I was welcomed and treated very well during my visit! I would recommend going if your are in need of facial help. If you are unsure on how to clean your face and what products would help your skin flourish, I recommend going to Tania's MediSpa. They are knowledgeable on the subject, and want to see your skin getting healthier.

My Dermapen treatment was amazing. I had some scarring and deep lines removed from my face. I saw results within the very first day. I would recommend this treatment at TaniaMedi Spa.

This is the place that I would recommend for skin treatments. I did the facial last week and it was amazing. I feel so relaxed and I love the product they use. The lady who did my facial was so friendly and nice. I must say that she is professional in it. Now I can feel the difference before and after my facial. Spa was so nice and clean and I loved the music going on the Spa. I will surely come back again for my facial.
